Mr. Gary Spackman:

I received your information regarding Mitigation of diversion of ground water right with priority dates junior to July 3, 1883, located in Water district 34. Big Lost River. I can't recall receiving information regarding a plan for consumption of ground water or surface water.

You request that water be returned by well for ground water consumption. I do not have a well or have I used well water or surface water for the last 5 years. Therefore I can't return something I have never used. My plan is not to use any ground or surface water for the next five years. I would like your plan to review since the Jensen's plan was not satisfactory. I would need a plan to be in place when I do decide to use the surface water. Therefore, help me present a satisfactory plan from yourself or from others that have presented a satisfactory plan.

Sincerely,

Joseph V. Bowden
